Acoustic Noise and its Control, Conference on ... 134
Advances in Computer Control, Second U.K.A.C. Convention 330

AERIALS AND ARRAYS:

Antenna for Rapid Scan Decorrelation Radar ... **156**
U.H.F. Television Reception with Incident Field Strength of under 100 microvolts per metre ... **163**
Some New Studies of Angular Resolution for Linear Arrays **341**
Air Traffic Control Systems Engineering and Design, Conference on 330

AMPLIFIERS:

Application of Barium Titanate to Microwave Parametric Amplification **21**
A True I.F. Logarithmic Amplifier using Twin-Gain Stages **149**
Gain and Stability of Tuned Transistor R.F. and I.F. Amplifiers **233**
Low-noise Parametric Amplifier for Earth Satellite Communication 327
The Effect of the Upper Sideband on the Performance of a Parametric Amplifier **337**
An S-Band Parametric Amplifier using a Balanced Idler Circuit **377**
Analogue Method of Studying the Angular Spectrum of Radiation Reflected from Rough Surfaces **363**
Analysis and Synthesis of Feedback Compensated Third-order Control Systems via the Coefficient Plane **119**
Anemometer, A Portable Integrating Omnidirectional **371**

INDEX OF ABSTRACTS

This index classifies under subject headings the abstracts published throughout the volume in "Radio Engineering Overseas" and the summaries of papers scheduled for presentation at the Conference on Electronic Engineering in Oceanography.

Amplifiers

Non-linear theory of negative-conductance travelling-wave amplifiers. Y. P. Voloshchenko and V. A. Malyshev 388

Signal/noise ratio diminishing of parametric amplifier due to noisy pumping source in the case of f.m. transmission. T. Okajima, T. Kamata and H. Komagata 200

Broadcasting

Distribution of monophonic and stereophonic audio-frequency signals on television links. H. J. van der Heide and J. J. Geluk 200

Circuit Theory

Methods of calculating delay lines with lumped parameters. J. Klimeš 312

Computers

Determination of the requirements for the use of diode matrices for address decoding. O. Feustel 264

Data Acquisition and Processing

Data collection and position fixing from a satellite. G. D. Hogan and Mrs. M. R. Townsend 78

Data collection in fishing gear research. J. J. Foster ... 74

A data logging system for ministry research vessels. P. G. Griffiths 75

Development of an ocean data station. R. F. Devereux, H. Q. Driscoll, K. N. Jones, R. F. Kosic and S. T. Uyeda 77

A low cost compact buoy system for ship use to measure ocean structures over a month period. R. Frassetto 75

Ocean data measuring device. J. Gonella and J. Martin 76

ODESSA system (Ocean data environmental science services acquisition system). A. J. Goodheart ... 77

An unattended oceanographic data collection system. G. K. Tajima and P. C. Stahl 76

U.S. coast and geodetic survey hydrographic and oceanographic data acquisition systems. T. J. Hickley 75

Information Theory

Information-transmission accuracy and reliability of analogue wide-band modulation systems in the presence of fluctuation noise. A. F. Fomin 388

Measurements

An air-dropped acoustic bathythermograph. H. Castelliz 69

An artificial ocean—the calibration and evaluation facilities of the U.S. Naval Oceanographic Instrumentation Center. F. Alt 68

Current-shear measurements from a drifting ship. G. Krause 68

The development of a precise set of data relating conductivity to salinity and temperature. N. L. Brown 66

Design and construction of an oscillator phase controlled by a standard transmission periodically interrupted. G. Thomas 312

A digital echo counting system for use in fisheries research. B. R. Carpenter 70

The engineering for production of a recording current meter. G. F. Hodges 68

Experiments to measure the magnetic fields of ocean waves in shallow water. D. C. Fraser 71

A forty nanoseconds high-speed shifter. N. Kuroyanagi 200

A free-falling deep sea instrument capsule. F. E. Snodgrass 76
A free-floating wave meter. R. Gaul and N. L. Brown 71
In situ measurements and automatic recordings of conductivity, temperature and pressure. G. Siedler 67
An instrument for measuring the velocity of sound in water with improved accuracy in turbulence and under towed conditions. Miss E. Eady and R. Williamson 67
A low cost expendable bathythermograph. S. A. Francis and G. C. Campbell 68
Low-frequency sound sources for underwater use—statement of problem and some possible solutions. B. S. McCartney 70
The need for automation of observations in fisheries oceanography. R. Johnston and J. H. Steele ... 69
The problems of sea-wave recording. L. Draper ... 70
Salinity of sea water and its measurement. R. A. Cox 66
Sensors for *in situ* measurement of dissolved oxygen and carbon dioxide. A. E. Wheeler 67
A survey of the application of electronics to oceanographic sensors. A. M. East 66
A system for the measurement of magnetic micropulsations at sea. R. A. Hafer 70
A temperature-depth recording system. G. P. Fox ... 69
A towed thermistor chain for temperature measurement at various depths. R. Bowers and D. G. Bishop ... 67
Undersea observations for fishery problems. R. E. Craig and R. G. Lawrie 69

Navigational Aids

A digital phase meter for electronic navigational aids. A. Dunworth 264
A position-fixing aid to oceanography. J. K. V. Lee ... 77
V.L.F. relative navigation. J. H. Stanbrough, Jnr. ... 77

Propagation

Computer simulation of a troposcatter multi-path communication channel. I. P. Levshin and A. V. Prosin 264
Experimental studies on atmospheric ducts and microwave fading. F. Ikegami, M. Haga, T. Fukuda and H. Yoshida 388
Results of phase variation measurements on v.l.f. signals propagated through the Arctic Polar cap. G. Lange-Hesse and K. Rinnert 200

Radar

Digital bandwidth compressor for radar signals. W. H. Schönfeld, H. Gillman and H. E. Speckler 264

Reliability

Reliability of electronic equipment. *L'Onde Electrique*, September 1966 312

Semiconductors

Measurements of the microwave Faraday effect in low-resistance semiconductors. F. Seifert 312
Transient junction temperature rise and failure energy of transistors. K. Takagi and K. Mano 388

Sonar and Acoustical Measurements

Acoustic sub-bottom profiling in the North-eastern Atlantic. E. J. W. Jones 73
A buoyant seismic recording apparatus for use on the ocean bed. R. B. Whitmarsh 73
The development and use of acoustic energy sources for marine seismic profiling. P. A. Marke 73
Digital read-out echo sounder. C. H. Cooke 71
Mechano-acoustical detection of sediment distribution. H. Freytage 71
Shipborne instrumentation for continuous recording of acoustic reflectivity of the sea bed and of ocean scattering layers. K. R. Haigh 72
Simultaneous use of sideways-looking sonar, strata recorder and echo-sounder. R. W. G. Haslett and D. Honnor 72
Some recent developments in sideways-looking sonars. R. W. G. Haslett and D. Honnor 72

Telemetry

Communications aspects of underwater telemetry. H. O. Berktay and B. K. Gazey 74
A digital acoustic telemeter for fishing gear research. M. J. D. Mowat 74
A sonar-buoy for telemetering underwater sound signals. H. Urban 74
The timing of remote events using periodic telemetry samples. N. E. Burrowes 388

Television

The history of and technical problems in videotelephones. O. Horner and W. P. Passon 312
